

Waste Manual – Women’s Camp 2025

GENERAL WASTE:

Collected in the trash bins placed around the camp.

Empty into the large containers by the parking area daily or when needed.

These containers are emptied every Thursday.

FOOD WASTE:

Place in the grey bins with lids using green bags, or grey waste bags with tie handles.

Tie a knot on the bag and place it in the container outside the kitchen tent.

When full, take it to the container area by the parking area.

Get a new empty bin from behind the tools tent.

After the containers have been emptied (every Thursday), place one empty container at the kitchen tent and the rest behind the workshop tent.

Every Wednesday evening, prepare the full containers for pick-up.

They must be placed by the driving plates before Thursday morning.

After the waste has been collected, distribute the empty containers as described above.

GLASS/METAL:

Place in the containers outside the kitchen tent and the common tent.

When full, take them to the container area by the parking area.

Get new empty ones from behind the workshop tent.

If there is not enough space in the containers, metal can be taken to the large containers at the harbour. They are open for drop-off on Wednesdays 15:00–17:00 and Saturdays 10:00–13:00.

Emptying dates: July 10 and August 7

PLASTIC:

Plastic waste and milk cartons are collected in special bags.

These are emptied into the large containers next to the toilet wagon.

Extra clear bags with a knot can be placed next to the containers.

Emptying dates: July 1 and July 29

CARDBOARD/PAPER:

Everything must be folded to take up as little space as possible.

Collect in the bread crate outside the kitchen tent.

Empty into the three large containers by the driving plates.

If there is not enough space in the containers, cardboard and paper can be taken to the large containers at the harbour. They are open for drop-off on Wednesdays 15:00–17:00 and Saturdays 10:00–13:00.

You can also make a stack of cardboard tied with string (not plastic) and place it next to the container.

Emptying dates: July 10 and August 7
